Open Frame LCD Excites GVISION Solution Providers **19" Industrial LCD Display offer myriad of solution possibilities**

Lake Forest, CA (July 5, 2005) – GVISION USA Inc., a leading manufacturer of LCD displays announced today the availability of their new K19BH open frame monitor. Designed for countless market possibilities, the 19" LCD, supporting resolutions up to 1280x1024, complements solutions in POS, gaming, process control, digital signage and surveillance scenarios. The flexible mechanical design is conducive to a variety of industrial applications.

The K19BH features a high contrast color TFT LCD display, wide viewing angle of 170° and multiple I/O possibilities, including VGA, DVI, composite and s-video. The 19" open frame also has an option for a USB hub with 1 upstream and 2 downstream ports for easy connection of other peripheral devices. GVISION offers the K19BH with a variety of touch options, including Elo AccuTouch 5-wire resistive screens, 3M MicroTouch capacitive screens and our highly affordable Elo "Plug n Play" compatible GTouch® 5-wire resistive touch.

"The GVISION K19BH allows our resellers to provide a larger display screen with any Digital Kiosk application," offered Paul Olson, GVISION National Sales Manager, "it has been particularly well-received by our OEM partners that design for the slots, bingo and gaming industry."

Carrying our standard three-year limited warranty, the K19BH can be purchased through GVISION authorized distribution partners, nationwide. For more information on GVISION and its products, call 1-866-651-9688 or visit the GVISION website at www.GVISION-USA.com.
