

2026 **MARCH**

# NEWS LETTER

As we move into March, GVision continues to expand its capabilities across mission-critical display and monitoring technologies. With increasing demand for reliable visual systems in defense, maritime, and security environments, we remain committed to delivering high-performance solutions designed for durability, visibility, and operational reliability. We look forward to strengthening partnerships and supporting industry innovation throughout 2026.

MD&M 2026

AFCEA WEST 2026

## MONTH OF HIGHLIGHT

# ULTRAWIDE 37" & 49" POE MONITORS

This month, we are highlighting GVision's UltraWide 37" and 49" PoE monitors, designed to enhance situational awareness and monitoring efficiency in control rooms, command centers, and security environments.

The 37" UltraWide PoE Monitor features a 32:9 stretched aspect ratio with a 1920 x 540 resolution, delivering an extended horizontal viewing area ideal for multi-window applications. With up to 700 nits brightness and Power-over-Ethernet (PoE) capability, the monitor simplifies installation while maintaining high visibility in demanding environments.
