

2024

NEW YEARS

NEWSLETTER

Greetings from GVision USA

We hope you had a wonderful holiday break! Whether you celebrated Christmas, Hannukah, Kwanzaa, or just spent some quality time with your friends and family, we are glad you closed out the year on a high note. We here at GVision USA are looking forward to 2024 and all the exciting announcements to be made, events to attend, and people to work with as our businesses grow together. Before going deeper into our plans this year, we would like to wish you a premature happy MLK day for one of America's most honored and cherished citizens, as well as a Happy Birthday to our talented marketing manager Michael!

2024 Tradeshow

Our representatives will be attending a few notable trade shows in the upcoming year, with the first half of 2024 containing ISC West, Expo Seguridad in Mexico, and of course, InfoComm in June. Please feel free to visit our booths and speak to our excellent sales team who would love to demo our showcased products or answer any questions you may have. We will keep you updated with more events we will exhibit or attend in the upcoming months.

January Promotion

In addition, keep on the lookout for some exciting new announcements to be made this year, including new products with cutting-edge technology, and a partnership with a software company who synergizes perfectly with our product line. We also have an ongoing promotion for the new year as well as a **FREE video balun** with our 32-inch PoE monitors. See the details below:

FREE VIDEO BALUN
w/ 32" POE MONITORS
